Ms. Ellen Greeney
Superfund Community Relations Coordinator
6H-SS
U.S. Environmental Protection Agency
1201 Elm Street
Dallas, Texas 75270

Dear Ms. Greeney:

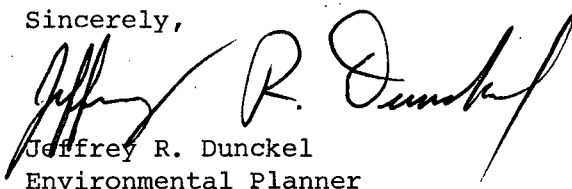

Subject: Arkwood Site, Community Interviews
WA No. 100-6LA3
Project Number W68510.00

Enclosed is a summary of the community interviews you and I conducted on November 3, 4, and 5, 1986, for the Arkwood site in Omaha, Arkansas. In addition, I developed an outline of our activities during the 3 days we were at the site. This is also included.

We interviewed local officials and residents living near the site to assess issues of concern to the community and to help EPA develop an effective community relations plan for the site. Several issues of importance were brought to EPA's attention during these discussions. Children are reported to play in a contaminated stream running from the site, and the public actively uses the site for social events. Fill dirt from the site is reportedly being removed from the site by the public.

I have enjoyed working with you, Ellen, and I look forward to future assignments in EPA Region VI. If you need further information about the enclosed materials or would like additional support, please do not hesitate to contact me.

Sincerely,

Jeffrey R. Dunckel
Environmental Planner
